Tier IV Regulatory Overview

Tier IV Solution Overview

Machine Operational Considerations & Consequences

CNH Systems & Operational Details (NH & Kobelco)

Machine Emission Walk Arounds

This class is a must for Operators of Off Road Equipment (Backhoes, Dozers, Tractors, etc).

Operation and service of the new Tier 4 Emission Engines is very different and could be very costly if proper procedures are not followed.

Skip Owen has worked with different Off Road Equipment manufactures over the years and is now a specialist with New Holland.

This is a free training class, don't miss this opportunity!
