

**Southeastern Governmental Fleet Managers Association**

*Promoting the Professional, Social, and Personal interaction between Members of the Fleet Management Profession in the Southeast*

**SGFMA is offering another FREE Training Class**

**Proper Tire Applications and Maintenance  
stressing **SAFETY** when servicing and changing  
tires--“Truth or consequences” to consider for all  
tires and applications**

Class will cover proper application, proper tire positioning, inflation data, statistics, instruction, and maintenance procedures necessary for correctly choosing every tire and justifying the application in which tires will be used to **SAVE MONEY** while first and foremost promoting **SAFETY** for your Technicians working with any phase of tire changing, tire repairs, proper handling, and/or maintenance. Learn when, where, and why to consider retreads to save money and still provide desired service and cost savings for your fleet. There will be a hands on demo instruction for properly changing and inflating tires on both single and multi-piece wheels.

-----Knowledgeable instructors bringing the latest training information and stressing utilization of proper tools and equipment will help every fleet professional and technician understand tire management and **SAFETY in the workplace** regardless of the size of your fleet and the various sizes of tires or applications used.-----
