Members of the Fleet Management Profession

SGFMA is offering another **FREE** Training Class for our Membership

Alternative Fuel Systems Repair — CNG, LNG, LPG, and Bi-Fuel Systems

This class will be beneficial for Managers, Shop Foremen, and Technicians. The class will be result driven for all leaders and persons responsible for and/or safely diagnosing problems and making repairs to Alternative Fuel systems to include CNG, LNG, LPG, and Bi-Fuel systems and components. These systems can be **dangerous** and pose a threat for repair technicians and vehicle operators unless the correct procedures, tools, and available **TRAINING** are a part of the repair plan for our alternative fuel fleet vehicles. Join us for a focused and informative training session to empower your technicians and help keep them safe while handling the alternative fuel vehicle system repairs in your facility. Class outline is as follows:

- Types of Alternative Fuel systems and component locations
- Safety Precautions—A close look at WHY and WHY NOT!!!!
- In shop REPAIR precautions and considerations

Training Instructor: Joe Knight—Raytheon Professional Services, LLC.
