

*Southeast Governmental Fleet Managers Association Promoting the Professional, Social, and Personal interaction between Members of the Fleet Management Profession*

**SGFMA is offering another opportunity for a FREE Training class and recommend you plan to attend—It'll Be GREAT!!!!**

## **Advanced Electrical Clinic**

New vehicles require new repair procedures and up to date training to do repairs properly and save money. This is a technically oriented training presentation that focuses on systematic approaches to general electrical, advanced computer controlled charging system, networking and testing.

- Introduction to battery, charging and starting system testing. Discussion on AGM batteries, circuit testing and gear reduction starters.
- An in depth look at computer controlled charging systems and testing. Discussion of system operation on domestic vehicles.
- Introduction to networking, and the different types of networking structures.
- Testing tips for networking and the different types of common faults.
- Small electrical motor diagnostics, lab scope set up and pattern analysis

**The Advanced Electrical Clinic is intended for all levels of technicians that are interested in elevating their overall knowledge of electrical systems used today and those of tomorrow.**

**Matt Crompton---Instructor—NAPA**

**Charlie Walden and Brooks Auto Parts supporting and making this training session possible**

## Driving directions to City of Thomson Georgia Railroad Depot Building

From South Carolina on Interstate I- 20 take exit 172 and go south on GA. 17 (South toward Thomson). Go through 4 red lights-- after 4<sup>th</sup> light you will see Railroad tracks ---- Turn left BEFORE tracks onto Railroad St. The Depot is first building on the right. You will need to come into the building, up the steps, and thru the door.
